

**Schneider Risk Management, LLC** is your resource for safety and environmental compliance. SRM helps companies reduce and manage their environmental and safety risks. Our philosophy is straightforward. When clear and manageable strategies are used, your company will develop a proactive safety and environmental culture which in turn reduces risk and the cost of compliance.

## We Are Unique

- **We build Partnerships** - We teach as we go so that our clients understand the intent of the regulation to better manage their regulatory risks.
- **Experience** - SRM shares the many best practices we have developed and observed over the years to provide our clients compliance options rather than one shoe fits all.
- **We Emphasize Effective Results** - We believe that safety and environmental compliance are the natural result of an integrated, proactive management culture.
- **Our Goal** - To design an integrative compliance strategy that fits into your operation instead of apart from it.
- **Superior Service** - When you choose SRM you receive personal attention from our principal consultants.

<b>Certifications:</b>	WBE (2005122281) WOSB (W060172)

# SOLUTIONS

## CASE STUDY

### Problem:

An international industrial equipment manufacturer experienced EHS staff turnover that resulted in compliance interruptions for numerous environmental and safety programs required by OSHA and EPA.

SRM was asked to review its programs and help the company identify and prioritize where the company needed to place its resources and reduce its risk associated with non-compliance issues.

### Highlights:

- SRM performed audits of the company's written plans, programs and record-keeping.
- Determined compliance status and identified compliance gaps.
- Provided on-site assistance and regulatory guidance to prioritize corrective actions.
- Developed a written compliance calendar.
- Worked with corporate attorneys and EHS managers on communications with state regulators to prevent fines and penalties.
- Completed discreet projects such as:
  - ◇ Updating the facility's SWPPP for storm water
  - ◇ Revising spill control (SPCC) plans,
  - ◇ Developed work instructions for water sampling,
  - ◇ Prepared Tier 2 and TRI reports
  - ◇ Hazardous waste biennial reports.

- *Experience*
- *Effective*
- *Integrity*
- *Resourceful*

## Past Performance and Current Projects

### Government Facilities

- SPCC Plan revisions

### Food & Beverage

- PSM Compliance Audit
- Safety Compliance Audit
- SPCC Plan revisions

### Cleanup Sites

- SWPPP (Industrial and Construction) Preparation and Management
- Regulatory Compliance Support
- NPDES Permit applications
